LOOKING FOR LOVE

I took a walk looking for love
Didn't know it will cause me so much trouble
You see.. I've been alone for too many years
I took a walk learning about the cost of truly new emotions
You see I've been alone for too many years
It's been right and wrong, but no, it never reached indictment
The truth is out and everybody knows that I've been a good boy.
I took a walk searching myself
Didn't know it will cause me so much trouble
Take my love
Take my home
Just save me from the one that I've become
It's right and wrong, but no, it never reached indictment
The truth is out and everybody knows that I've been a good boy

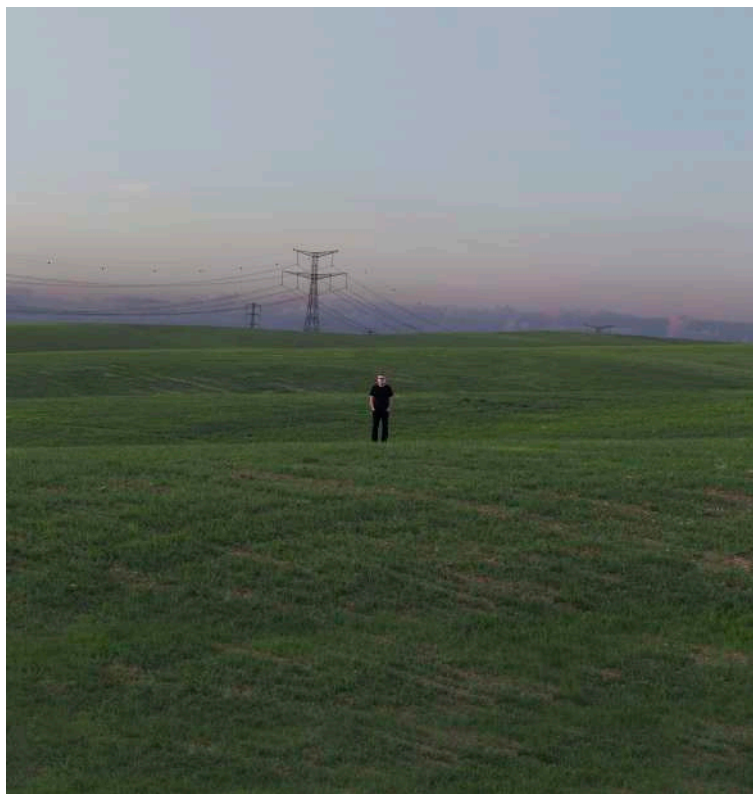

DELILAH

I remember very well
The nicest place the perfect smell
There was something there
Something with the color of her hair
A funny glimpse, a little smile
Then I sat there for a while
I took a drink before, really looked into her eyes.
I'd really love to kiss her, all the way
Like Samson kissed Delilah every day.

I remember very well
I'm no fool to fall in spell
There was something there
I took a drink and then I dared
I'd really love to kiss you all the way
Like Samson kissed Delilah every day
Every day

You'd really love to kiss me I heard you say,
You better take a hike and look away
look away

NO MORE SAD TOMORROWS

I'm gonna Look over my shoulder see my past just got undo
And now that I know that it's over, I'm gonna start all over new
gonna look over my shoulder see the lights are down
Now that I know that it's over, life will settle down

So tired of packing the blame,
gonna heal my heart
Tears are meant to dry out in the end

No more sorrows no more sad tomorrows
I promise myself and then forget.

TRUTH

They say that love is a kind of game, well I don't know
I don't feel it's quite the same.. or quite as so
I only know you are the colors in my way that shines in bright
Something in the way you make things right

It doesn't matter what you say, it's what you do
I decided long ago to try and reach for something new
I never thought that I could live another day without you near
Something in the way you make things clear

Truth, nothing ever touch me like you do

I know it's cruel
But I'll save myself for you
Some things are hard to understand

SORRY

It's a bit like win, no one really has to fall
It's a bit like lose to stand up, first you have to crawl
It's a bit like me, always got to do it all
It's a bit like you, never had a second thought
I'm sorry but I really had to go
You know me
How hard it was for me to leave it all
You know me.

NO FEAR

Don't wait to hear about the things you've heard before
The songs have changed and so did I
Unlock the door, kindness is on my side.
Don't wait to hear about the end of the world
I found a way to survive
Unlock the door, spirit is on my side

And I.. I want to tell you how I feel
This love we have is something real
I feel it every day and night
And I.. I want to hear you say you'll stay
You bring tomorrow's better day
So forget about what people say

Cause I love you.

It's all about us my dear
You can't rush love then disappear
Now its clear when love is strong there is no fear

Don't wait to hear about the things you've heard before
The songs have changed and so did I
Just unlock the door and don't worry about a thing
Spirit is on our side

BACK TO LIFE

I'll be the one who makes your tears drop
I'll be the one who dries them off
Whenever you're down I can be your clown all day long
And I'll be something in between
Your holy saint your greatest sin

If you don't care about it let it go
But if you love her won't you let her know
I've been good and lately I am sharp as a knife
I'm coming back to life

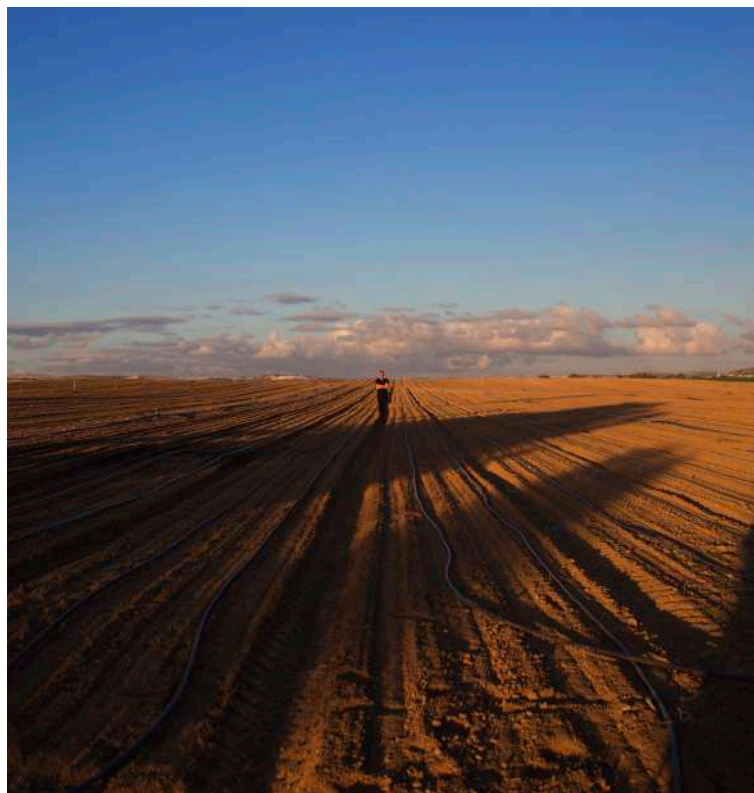

I'll be the one who takes you out girl
I'll be the one who drives you home
Whenever you're high I can be your sky all night long
I'll be something in between
Your holy saint your greatest sin

If you don't care about it let it go
But if you love her won't you let her know
And I've been good and lately I am sharp as a knife
I'm coming back to life.

HALF A CHANCE

I will wait as long as I have to wait, as long as it will take
I am not checking out, because there's even not a half a chance that I could
ever live without
I will wait as long as I have to wait, as long as it will take,
I am not checking out, but it's too difficult to know there's only half a
chance ever find the one.

MAPO 4

I belong to you and I am feeling fine
I belong to you and yes I know you're mine.
Honey that's the truth you know I'm not a child
Before you came into my life was always on the run
You know I took a risk and left it all behind
I am feeling fine but every time it cross my mind
I belong to you and yes I know your mine
But every time it cross my mind.

Don't worry now cause I'm not planning on saying goodbye
Cause you lift my heart and I guess you had me from the start

I belong to you and I am feeling fine
I belong to you and yes I know your mine
Before you came into my life was always on the run
You know I took a risk and left it all behind
I am feeling fine but every time it cross my mind
I belong to you and yes I know you're mine
But every time it cross my mind

KING WITHOUT A THRONE

If i carelessly got lost, will you find me
And if i stumble and i fall, are you behind me?
Im a king without a throne
Queen without love..No
Should have thought about it before

If i foolishly got high, get high beside me
Girl don't leave me high & dry, love your smile around me
I am a king without a throne
Queen without love.. No
Should have thought about it before.

YOU GOT ME

You got me crawling on my knees
You got me knocking on your door
Things I've never done before
You got me good you got me bad
You got me analyzing every word you ever

Say now you'll stay till its over, say now.

You got me weak you got me strong
You got me wrapped around your heart
And I will never do you wrong
You got me smiling just for you
You got me climbing hills and doing things I'll never thought I'll do

Say now you'll stay till its over, say now.

I can feel it anywhere, even when I'm on my own
I can see myself just rolling down this road with you
Rolling on and on and on and on
Say now you'll stay till its over, say now.
